Good Day

Praise Is The Cure, Inc. (PITC) is a non-profit organization founded by mother-daughter breast cancer survivors - Anita T. Conner and Kerri Conner Matchett. PITC's goal is to be the solution to the problem of Philadelphia's African American communities having limited education about breast health, fear of employing early detection practices and the lack of access to support services. One of the key ways PITC has successfully reached communities is through its annual Week of Hope Health & Healing. Created to kickoff Breast Cancer Awareness Month, this week of events enables women to receive free mammograms and other health screenings each year, educates and empowers communities losing the fight from lack of breast health education and celebrates breast cancer patients, survivors and their families.

For far too long breast cancer has attacked women in the African American community at a greater rate than any other ethnic group. The latest statistics show that ***African American women are more likely to die of breast cancer than any other cancer\****. This Must Stop!
