Praise Is The Cure® is a non-profit organization that cares about the breast health of current and future generations of Black women and men. We recognize the difficult journey to wellness made by breast cancer patients, survivors and their families, and we are ready to give hope and provide help.

Our mission is to eliminate breast cancer disparities among Black women by providing education, access to screenings and treatment and other support services to breast cancer patients, survivors and their families.

We promote breast cancer awareness; intervention; and prevention targeting Black women and their families with an emphasis on the underserved and underinsured in the Philadelphia region.
